

TLC

Helping children in distress at Surrey A & E

25th October 2010

Here Come The Girls !

A team of 7 ladies, spearheaded by Stewart Butchers wife Wendy, broke all records yesterday by packing 1280 teddies into individual plastic bags in under two hours.

The individually wrapped bears, a Surrey initiative, ensures the teddy is handed over to the child in pristine condition, something requested regularly by the hospitals in this era of super bugs and spotless hygiene standards.

The ladies gave their time freely but were enticed by a glass of champagne and an evening meal cooked by Stewart himself.

Teddies for Loving Care (TLC) Surrey Appeal, provides soft teddy bears to accident and emergency departments throughout Surrey. The bears are distributed by the nursing staff to comfort children admitted in distress and as a reward for the child's bravery at a time when they are deeply frightened.
